The historical method to accelerate market growth and economic activity is non-consented public indebted central bank funding of unanimous Congressional spending on conventional WARFARE and the means of destruction. In addition to providing accelerated private-sector wage-gains and defense contractor profits, this approach successfully inducts the economically disadvantaged into the armed services, and provides for effective thinning of portions of the human population identified (by the ruling class) as "non-essential" (expendable).

However, this time IS NOT conventional, by biological design...

Bio-wars. Population wars. Currency wars. Trade wars. Civil wars. World wars.

When the doors of perception are cleansed, things will appear to man as they TRULY are... INFINITE.

Back AT the Garden!

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

One person can make a difference, and everyone should try."

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

John F. Kennedy.

Ghislaine Maxwell's pending suicide

By Pete McArdle

When Jeffrey Epstein, the renowned financial maven and friend to the rich and powerful, was arrested for underage sex-trafficking, I knew that his days on the planet were numbered. Epstein simply knew too much to live.

What undoubtedly happened was that a lot of money changed hands, deals were made, prison guards and possibly their superiors were bought, cameras were surreptitiously disabled, and Epstein's murder was declared a suicide by bedsheet, an official conclusion that exactly zero people bought.
