...to create a permanent regenerative peace industry of vast proportion.

-Charles Fuller, June 29, 2019.

"For too long our leaders have failed us, taking us into one regime-change war after the next, leading us into a new cold war and arms race, costing us trillions of our hard-earned taxpayer dollars and countless lives. This insanity must end."

-Tulsi Gabbard, June 27, 2019.

NO ARMY can stop an idea whose time has come.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the individual have the courage to really go along with the TRUTH?"

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

John F. Kennedy.

It's NOT a border wall!!

It's a 30 foot elevated electric passenger powertrain with a solid base, powered by a solar canopy, the structure outfitted with IR cameras, night vision, motion detection, illumination, drone surveillance, constructed with abundant motivated labor, residing in local regenerative settlement communities, constructed by the same labor. "You never change things by fighting the existing reality. To change something, build a new model that makes the existing one obsolete."

"Behind the ostensible government sits enthroned an invisible government owing no allegiance and acknowledging no responsibility to the people. To destroy this invisible government, to befool the unholy alliance between corrupt business and corrupt politics is the first task of the statesmanship of the day."

- Theodore Roosevelt, 26th President of the United States, *Theodore Roosevelt, An Autobiography*, 1913.
